

NATIONAL YARD

国民院子

The base of this case is located in the reception center of Dalian, China. The case is positioned as the new National nobility to create its particularity and value. Through the clip and blend of Eastern and Western culture, the high and low level and the crossing of inside and outside of the real lines, and the parabola's attachment to the building, the virtual and actual of the building, the designers interpret the characteristics of the new national nobility, and the splendid dialogue between space and urban context is derived from them.

Designers constitute the decoration and the spirit lines of space with the local native material, making the environment fully stretch while deeply breathe. Designers show the most clumsy but delicate Montage spirit through natural calligraphy lines.

Totem and materials are voluntarily combined through the lighting, making the wall become an exquisite art which is full of historical charm. The presentation of the Western construction sequence reflects the Montage technique which is a combination of the eastern and western culture.

本案是位于中国大连的接待中心专案，为创造其特殊性与价值性，设计师以新国民贵族为其定位。设计者透过东西文化的剪辑与交融，实质线条的高低、内外交错，以抛物线依附量体的概念，建筑的虚与实，诠释新国民贵族特色，并衍生出空间与城市脉络的精彩对话。

以当地的原生素材，构成装饰与空间精神线条，让环境氛围尽情伸展同时深度呼吸，以自然的书法笔触线条，呈现大巧若拙的蒙太奇精神。

将图腾与材质透过灯光自行结合，让柱面成为充满历史韵味的精美艺术，西式建筑序列的呈现，体现东西融合兼容并蓄的蒙太奇手法。
